PREDICTX

SCREENING AND EVALUATION REPORT

Hospital: Brijesh Banger Memorial Hospital

Date of Report: 06 October 2026

Usage Period: 21 May 2025 - 06 October 2026

1. Overview

This report concerns the use and evaluation of PredictX, an artificial intelligence-based disease-risk screening system co-developed by Mrityunjay Gupta, a student at Jayshree Periwal International School, Jaipur, Rajasthan.

PredictX was intended to be used and tested under the supervision of authorised medical personnel, with screening outputs evaluated alongside standard diagnostic investigations.

2. Evaluation Summary

Parameter	Result
Total Patients Tested	517
Patients Flagged as High-Risk	163
High-Risk Cases Confirmed	106
High-Risk Confirmation Rate	65.0%
